ABL

ADVANCED BIOSCIENCE LABORATORIES

DRUG PRODUCT FILL/FINISH SERVICES

CDMO FOR VIRAL THERAPIES AND VACCINES

The race to clinic is competitive

PARTNER WITH AN END-TO-END VIRAL VECTOR CDMO WITH FILL/FINISH EXPERTISE AND INDUSTRY-LOW REJECT RATES.

ABL's aseptic filling operations in Rockville, MD, ABL provides the capability to support early clinical testing and the flexibility to accommodate your immediate needs.

Meeting demanding timelines is what we do —whether you need a comprehensive GMP production program or a standalone drug product fill. For DP, ABL integrates vialing, inspection, labeling, testing, storage and distribution activities for the provision of Ph I/II clincal trial materials.

Expertise in fill and finish of high-value, low-volume viral products for clinical trials including gene therapy candidates, oncolytic vaccines, and immunotherapies.

- DP fill/ finish in several standard vial configurations- with 100% visual inspection and AQL procedures
- Primary packaging and labeling
- Release testing and stability programs
- On-site Quality Assurance oversight of all operations

ABL is one of the few CDMOs providing custom live virus fill/finish services.
