

Viral Vector GMP Manufacturing

ABL Europe

ABL Europe SAS is a pure-play GMP CMO, completely dedicated to the provision of viral vector GMP contract manufacturing services and a subsidiary of ABL Inc. under the corporate (private) ownership of Institut Mérieux. Formed by the acquisition of Transgene's GMP manufacturing facilities, ABL has a particularly strong technical & regulatory track record in process development, scale-up & GMP manufacturing of oncolytic and immunotherapeutic viral vectors.

Process Validation

ABL draws on its expertise & experience to design production processes that optimize product yields, minimize regulatory risk & speed the time to clinic.

Quality Control

ABL Europe has a particularly strong in-house analytical function providing a wide range of viral vector product specific QC methods in addition to generic pharmacopeia procedures.

GMP Manufacturing

With a brand new 200 L stirred single use bioreactor (SUB) facility, ABL has strengthened its position in the GMP viral vector CMO market to support clients

Fill / Finish

ABL Europe provides viral vector aseptic drug product manufacturing services in-house using a Bausch and Straubel filling machine located in a rigid isolator.
