

# PROTEIN BIOMANUFACTURING

## Accelerated Protein Drug Development

Discuss how ABL can support your product!

ABL is attending the **PEGS: The Essential Protein Engineering Summit** from April 30 – May 4 at the Seaport World Trade Center in Boston, MA. Contact us today or visit us at **booth 200** to see how ABL can support the development of your protein!

As a CRO and CMO with over 50 years of experience partnering with clients to meet their product development goals, ABL provides contract manufacturing services for protein development from preclinical development to the commercial market.

- **Process Development and GMP Protein Manufacturing**
- **Recombinant Protein and Antibody Characterization / Potency**
- **Experienced in Increasing Yield and Reducing Time to Clinic with Transient Transfection**

We can also assist in the analysis for the design, efficacy, and safety of your protein with our immunobiology services.
